The International Gender Conference 2012 (IGC 2012) provides an opportunity for all participants to interact, exchange thoughts, ideas, and information that are pertinent to the gender issues in various fields. IGC is a dynamic international conference for academicians, practitioners and researchers with the theme of “Gender and Development: issues and Challenges”. One of the crucial indicators of a democratic country is to ensure equitable participation of men and women in various development plans. Since 1980s, the Gender and Development (GAD) approach has become one of the global milestones to achieve substantive equality between women and men. It has strengthened various international conventions related to gender sensitization agenda mainly Convention of Elimination of All Forms of Discrimination Against Women (CEDAW). Through the United Nations, nation-states have taken specific measures in mainstreaming gender and development approach in the country’s development plans. This approach has led to various global initiatives and framework mainly women empowerment and gender mainstreaming. Therefore, the Faculty of Administrative Science and Policy Studies (FSPPS), University Teknologi Mara (UiTM), Malaysia would like to invite you to Gender Conference (IGC 2012) in our quest to broaden the discourse and epistemological horizon of gender and development.
